

# TRAFFIC JAM ROLLERCOASTER TABLE

## DESCRIPTION

The hustle and bustle of city life is brought to the **Traffic Jam Rollercoaster**. This great activity table features beads in the shapes of traffic signs, cars, and busses- making the wire "highway" all the more realistic to little ones. They will work to clear jams, and get all of the vehicles to their destinations, while trying to avoid any collisions! With this table, multiple children can play at once- encouraging group play. It is also compact enough that it won't take up too much room. It provides an exciting activity for waiting rooms, classroom, doctors offices and the home. The table also features a lower maze where there are cars that can be moved through tracks on the table itself, adding an additional play element. Time will fly by as they play!
